DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

a) Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally **limited to a single paragraph** on a separate sheet within the range of 50 to 150 words. It is important that **the abstract not exceed 150 words in length** since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

In this application, the abstract exceeds 150 words in length and is not in the form of a single paragraph.

Allowable Subject Matter

None of the claims have been rejected under either 35USC102 or 35USC103 because the Applicant has limited independent claim 1 to recite that the denitration catalyst contains titanium oxide; an oxide of at least one selected from the group consisting of vanadium, tungsten, molybdenum, zeolite, titania, alumina and zirconia

Art Unit: 1793

supported with platinum, and the Applicant has also limited independent claim 6 to recite that the denitration catalyst contains titanium oxide; and oxide of at least one selected from the group consisting of vanadium, tungsten and combinations thereof.

After a consultation with a U. S. Patent Office Japanese translator, it was concluded that these particular features of independent claims 1 and 6 were not taught or suggested in either the abstract or text of JP 56-065,621.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **TIMOTHY C. VANOY** whose telephone number is (571)272-8158. The examiner can normally be reached on Mon-Fri 8-4:30.
